<p>Major sewer line improvements in the interest of current residents need to be addressed and undertaken during this project. Berkeley Water and Sanitation can not be trusted to act in the best interests of the residents. Residents do not have recourse to a county or state government entity to protect their legal rights regarding sewer lines. Perhaps it would be helpful if Adams County could apply pressure onto Berkeley Water and Sanitation to not lie, threaten, intimidate and shut down attempts of residents to have their needs addressed. I brought up sewer line issues at the start of the project with Eric, Long, and Rene. I think it would be cost effective if Adams County would address sewer line concerns of residents at the same time as drainage, streets, and sidewalks.</p>	1
