PRELIMINARY PLAT

(MAJOR SUBDIVISION)

A major subdivision shall only be used to divide parcels of twenty (20) or more acres or create five (5) or more lots. The first approval required is the preliminary plat. The preliminary plat provides an in-depth analysis of the proposed subdivision, including design of geologic hazards, environmentally sensitive areas, required services, vehicular/pedestrian circulation, and the relationship to surrounding land uses.

Please include this page with your submittal. More information about checklist items can be found on page 2-3. Submittal instructions are at the top of page 2.

Required Checklist Items

- ☒ Development Application Form
- ☒ Written Explanation
- ☒ Preliminary Plat
- ☒ Legal Description
- ☒ Conceptual Site Plan
- ☒ Proof of Ownership
- ☒ Proof of Water and Sewer Services
- ☐ Proof of Utilities
- ☒ Certificate of Taxes Paid
- ☒ Storm Drainage Study
- ☒ Trip Generation Analysis
- ☐ Receipt of Payment from the Colorado Geological Survey

Supplementary Checklist Items

- ☒ School Impact Analysis

Fees Due When Application is Deemed Complete	
Major Subdivision Preliminary Plat	\$1,400

Written Description of Proposal for 33100 E. 160th Ave

Our property consists of approximately 42.5 acres. We would like to divide the property into 3 parcels, one that we keep, the other two we would like to sell. Parcel 1 would be 9.2 acres along the east side of the property, parcel 2 would be the one we keep at 18.4 acres, and parcel 3 would be along the south border at 12.4 acres. We do not want to develop the parcels at this time, but would leave it up to the discretion of the future buyers of the parcels to build if they choose to. The source of water and sewer for the parcels would be a well and septic system since no city water or sewer is available at this point in the area.

WARRANTY DEED

State Doc Fee: \$75.34
Recording Fee: \$23.00

THIS DEED is dated the 23rd day of January, 2024, and is made between

Lawrence Balzano and Valerie Balzano

(whether one, or more than one), the "Grantor" of the County of Adams and State of Colorado and

Cody Snider and Christina Snider

the "Grantees", whose legal address is 33100 East 160th Avenue, Hudson, CO 80642 of the County of Adams and State of Colorado.

WITNESS, that the Grantor, for and in consideration of the sum of **Seven Hundred Fifty Three Thousand Three Hundred Fifty Dollars and Eighty Four Cents (\$753,350.84)**, the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantees and the Grantees' heirs and assigns forever, **not in tenancy in common but in joint tenancy**, all the real property, together with any improvements thereon, located in the County of Adams and State of Colorado described as follows:

Parcel A, according to Horth Parcel Map Amended recorded March 13, 2002 as Survey No. 200, Reception No. C0939653 in the Clerk and Records Office of Adams County, Colorado, more particularly described as follows:

A parcel of land situate in the West Half of Section 7, Township 1 South, Range 64 West of the 6th Principal Meridian, County of Adams, State of Colorado, described as follows:

Beginning at the Northwest corner of said Section 7; Thence S89° 27' 35"E along with the North line of the Northwest Quarter of said Section 7, with all bearings hereon relative thereto, a distance of 1203.34 feet; Thence S00° 15' 53"E a distance of 1538.96 feet; Thence N89° 26' 09"W a distance of 1203.35 feet to a point on the West line of said Northwest Quarter of Section 7; Thence N00° 15' 53"W along the West line of said Northwest Quarter of Section 7 a distance of 1538.46 feet to the Point of Beginning;
County of Adams, State of Colorado.

also known by street address as: 33100 East 160th Avenue, Hudson, CO 80642

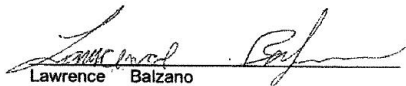

TOGETHER with all and singular the hereditaments and appurtenances thereto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

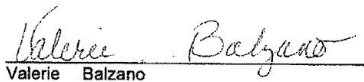

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantees, and the Grantees' heirs and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensealing and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law, and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: Statutory Exceptions as defined in C.R.S. § 38-30-113(5)(a).

And the Grantor shall and will **WARRANT THE TITLE AND DEFEND** the above described premises, in the quiet and peaceable possession of the Grantees, and the heirs and assigns of the Grantees, against all and every person or persons lawfully claiming the whole or any part thereof.

IN WITNESS WHEREOF, the Grantor has executed this deed on the date set forth above.

Lawrence Balzano

Valerie Balzano

PERMIT TO CONSTRUCT A NEW WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-137(4) and the findings of the State Engineer dated July 31, 2024.
- 4) The use of groundwater from this well is limited to household use and livestock watering.
- 5) The pumping rate of this well shall not exceed 15 GPM.
- 6) Production from this well is limited to the Laramie-Fox Hills aquifer which is located approximately 1,025 feet below ground surface and extends to a depth of approximately 1,310 feet. Wells completed in the Laramie-Fox Hills aquifer must be constructed with solid steel casing and grouted in accordance with Well Construction Rule 10.4.8 (2 CCR 402-2). If coals and/or carbonaceous shales are encountered in the borehole, plain casing and grout should be installed through these intervals to exclude poor quality water from entering the well, in accordance with BOE Bulletin 2021-1.
- 7) The average annual amount of groundwater to be withdrawn shall not exceed 2.88 acre-feet and the total volume of groundwater to be withdrawn shall not exceed 288 acre-feet.
- 8) The entire length of the hole shall be geophysically logged as required by Rule 9 of the Statewide Nontributary Ground Water Rules prior to installing casing.
- 9) The owner shall mark the well in a conspicuous location with well permit number(s), name of the aquifer, and court case number(s) as appropriate. The owner shall take necessary means and precautions to preserve these markings.
- 10) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- 11) This well shall be constructed more than 600 feet from any existing well, completed in the same aquifer, that is not owned by the applicant.
- 12) This well shall be constructed not more than 200 feet from the location specified on this permit.
- 13) Pursuant to CRS 37-90-137(9)(b) and the Denver Basin Rules, no more than 98% of the nontributary groundwater withdrawn annually shall be consumed and the well owner shall demonstrate to the reasonable satisfaction of the State Engineer that no more than 98% of the water withdrawn will be consumed.
- 14) This well is subject to administration by the Division Engineer in accordance with applicable decrees, statutes, rules, and regulations.

- 15) ADVANCE NOTICE REQUIRED - Pursuant to Construction Rule 6.2.2.1 (2 CCR 402-2), licensed or private drillers and pump installers must provide advance notification (by 11:59 pm the day before) to the State Engineer prior to each of the following for this well: the start of well construction, the initial installation of the first permanent pump, and the initial installation of a cistern connected to the water well supply system. Any change in the date of construction/installation must be re-noticed prior to the activity (by 11:59 pm the day before). Information regarding the notification process and a link to the electronic notification form can be found on the Division of Water Resources website at dwr.colorado.gov

NOTE: This well is withdrawing water from a non-renewable aquifer. While the withdrawals from this aquifer are administered based on a 100 year aquifer life, water level declines may prevent this well from diverting the permitted amounts for that 100 years.

NOTE: To ensure a maximum productive life of this well, perforated casing should be set through the entire producing interval of the approved zone or aquifer indicated above.

NOTE: This permit will expire on the expiration date unless the well is constructed and a pump is installed by that date. A Well Construction and Yield Estimate Report (GWS-31) and Pump Installation and Production Equipment Test Report (GWS-32) must be submitted to the Division of Water Resources to verify the well has been constructed and the pump has been installed. A one-time extension of the expiration date may be available. Contact the DWR for additional information or refer to the extension request form (GWS-64) available at: dwr.colorado.gov

Issued By WENLI DICKINSON

Date Issued: 7/31/2024

Expiration Date: 7/31/2025

FINDINGS OF THE STATE ENGINEER

IN THE MATTER OF AN APPLICATION FOR A PERMIT TO CONSTRUCT A WELL IN WATER
DIVISION NO. 1, ADAMS COUNTY, COLORADO

APPLICANT: CHRISTINA AND CODY SNIDER

AQUIFER: LARAMIE-FOX HILLS

PERMIT NO.: 89373-F

In compliance with C.R.S. 37-90-137(1) and the Statewide Nontributary Ground Water Rules, Christina and Cody Snider, (hereinafter "applicant") submitted an application for a permit to construct a well. Based on information provided by the applicant and records of the Division of Water Resources, the State Engineer finds as follows:

1. The application was received complete by the State Engineer on April 9, 2024.
2. The applicant proposes to construct the well in the NW1/4 of the NW1/4 of Section 7, Township 1 South, Range 64 West, 6th Principal Meridian.
3. The proposed well is located outside the boundaries of a designated ground water basin.
4. The applicant proposes to apply the water withdrawn from the well to the following beneficial uses: household use and livestock watering.
5. The proposed maximum pumping rate of the well is 15 gallons per minute, and the requested average annual amount of ground water to be withdrawn is the maximum amount determined to be available.
6. The applicant is the owner of the land on which the well will be constructed.
7. The proposed well would withdraw ground water from the Laramie-Fox Hills Aquifer (hereinafter "aquifer"), which, as specified in the Denver Basin Rules, is located approximately 1025 feet to 1310 feet below land surface.
8. The location of the proposed well is more than 600 feet from any existing well completed in the aquifer.
9. According to a sworn statement, the applicant owns, or has consent to withdraw ground water underlying 12.4 acres of land as further described in said statement, which is attached hereto as Exhibit A.

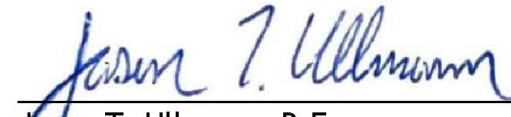

10. Withdrawal of ground water from the aquifer underlying the land claimed by the applicant will not, within one hundred years of continuous withdrawal, deplete the flow of a natural stream at an annual rate greater than one-tenth of one percent of the annual rate of withdrawal and therefore the ground water is nontributary ground water as defined in C.R.S. 37-90-103(10.5).
11. In considering whether the requested permit shall be approved the provisions of C.R.S. 37-90-137(4) and the Denver Basin Rules shall apply. Withdrawals shall be allowed on the basis of an aquifer's life of 100 years, C.R.S. 37-90-137(4)(b)(I).
12. The quantity of water in the aquifer, exclusive of artificial recharge, underlying the 12.4 acres of land described in Exhibit A is 288 acre-feet. This determination was based on the following as specified in the Denver Basin Rules:
 - a. The average specific yield of the saturated aquifer materials underlying the land under consideration is 15 percent.
 - b. The average thickness of the saturated aquifer materials underlying the land under consideration is 155 feet.
13. A review of the records in the State Engineer's Office has not disclosed that there are any existing wells or other water rights claiming or diverting ground water from the aquifer underlying the land claimed by the applicant.

Based on the above, the State Engineer finds that there is water available for withdrawal by the proposed well and no material injury to vested water rights would result from the issuance of the requested permit subject to the following conditions:

- a. The allowed average annual amount of water to be withdrawn from the aquifer by the well shall not exceed 2.88 acre-feet (the quantity of water which is considered available divided by the 100 year aquifer life).
- b. The total volume of water that may be withdrawn from the aquifer by the well shall not exceed 288 acre-feet.
- c. The well shall be constructed no more than 200 feet from the location specified on the permit application.
- d. The applicant shall submit geophysical and lithologic logs after the construction of the well. The geophysical logs shall be obtained from the hole before the casings are installed.
- e. The maximum pumping rate of the well shall not exceed 15 gallons per minute.

- f. A totalizing flow meter must be installed on the well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- g. Production is limited to the Laramie-Fox Hills Aquifer. The well must be constructed with plain, non-perforated casing properly grouted so as to prevent intermingling of water between aquifers.
- h. Pursuant to C.R.S. 37-90-137(9)(b) and the Denver Basin Rules, no more than 98% of the nontributary ground water withdrawn annually shall be consumed and the applicant shall demonstrate to the reasonable satisfaction of the State Engineer that no more than 98% of the water withdrawn will be consumed.
- i. The owner shall mark the well in a conspicuous place with appropriate well permit numbers, name of the aquifer, and court case numbers. He shall take necessary means and precautions to preserve these markings.

Dated this 31st day of July, 2024.

Jason T. Ullmann, P.E.
State Engineer/Director

NONTRIBUTARY GROUNDWATER LANDOWNERSHIP STATEMENT

This form is to be submitted with applications for the following, when the applicant is the owner of the overlying land.

- 1) A well permit to withdraw groundwater from the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or other aquifer the applicant claims contains nontributary groundwater, outside of a Designated Groundwater Basin subject to section 37-90-137(4), C.R.S., except when the right to withdraw the groundwater has been determined by a valid decree; OR
- 2) A determination of water right in the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or a well permit to withdraw groundwater from those aquifers that are subject to Designated Basin Rule 5.4, within a Designated Groundwater Basin.

NOTE: Form submittal instructions can be found on our website Colorado.gov/water. See instructions on the reverse of this form. Type or print in black or blue ink.

VERIFICATION OF NOTICE OF APPLICATION

This form is to be submitted with applications for the following.

1) A well permit to withdraw groundwater from the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or other aquifer the applicant claims contains nontributary groundwater, outside of a Designated Groundwater Basin subject to section 37-90-137(4), C.R.S., except when the right to withdraw the groundwater has been determined by a valid decree; OR

2) A determination of water right in the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or a well permit to withdraw groundwater from those aquifers that are subject to Designated Basin Rule 5.4, within a Designated Groundwater Basin

NOTE: Form submittal instructions can be found on our website Colorado.gov/water. See instructions on the reverse of this form for exceptions to the above list. Type or print in black or blue ink.

WARRANTY DEED

State Doc Fee: \$75.34
Recording Fee: \$23.00

THIS DEED is dated the 23rd day of January, 2024, and is made between

Lawrence Balzano and Valerie Balzano

(whether one, or more than one), the "Grantor" of the County of Adams and State of Colorado and

Cody Snider and Christina Snider

the "Grantees", whose legal address is 33100 East 160th Avenue, Hudson, CO 80642 of the County of Adams and State of Colorado.

WITNESS, that the Grantor, for and in consideration of the sum of **Seven Hundred Fifty Three Thousand Three Hundred Fifty Dollars and Eighty Four Cents (\$753,350.84)**, the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantees and the Grantees' heirs and assigns forever, **not in tenancy in common but in joint tenancy**, all the real property, together with any improvements thereon, located in the County of Adams and State of Colorado described as follows:

Parcel A, according to North Parcel Map Amended recorded March 13, 2002 as Survey No. 200, Reception No. C0939653 in the Clerk and Records Office of Adams County, Colorado, more particularly described as follows:

A parcel of land situate in the West Half of Section 7, Township 1 South, Range 64 West of the 6th Principal Meridian, County of Adams, State of Colorado, described as follows:

Beginning at the Northwest corner of said Section 7; Thence S89° 27' 35"E along with the North line of the Northwest Quarter of said Section 7, with all bearings hereon relative thereto, a distance of 1203.34 feet; Thence S00° 15' 53"E a distance of 1538.96 feet; Thence N89° 26' 09"W a distance of 1203.35 feet to a point on the West line of said Northwest Quarter of Section 7; Thence N00° 15' 53"W along the West line of said Northwest Quarter of Section 7 a distance of 1538.46 feet to the Point of Beginning;
County of Adams, State of Colorado.

also known by street address as: 33100 East 160th Avenue, Hudson, CO 80642

TOGETHER with all and singular the hereditaments and appurtenances thereto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantees, and the Grantees' heirs and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensembling and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law, and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: Statutory Exceptions as defined in C.R.S. § 38-30-113(5)(a).

And the Grantor shall and will **WARRANT THE TITLE AND DEFEND** the above described premises, in the quiet and peaceable possession of the Grantees, and the heirs and assigns of the Grantees, against all and every person or persons lawfully claiming the whole or any part thereof.

IN WITNESS WHEREOF, the Grantor has executed this deed on the date set forth above.

WARRANTY DEED

To: dwrpermitsonline@state.co.us

Cc: My Love <cdlsnider@gmail.com>

Good afternoon,

We recently purchased 42 acres from my aunt and uncle. We would like to separate off 2 parcels of land from the 42 acres to sell to help pay for the property and home. I've started the process with Adams county. They stated we need proof of water for the lots. I've emailed back and forth with DWR on how best to do this, and decided it was best to apply for a well for each parcel. Please see attached application and additional forms needed. We would like to apply for non exempt wells, keep the current well that's on the property with the house in its current operating capacity, and appropriate the ground water under each new parcel to itself. Please reach out with any questions, or additional information needed. Thank you.

Christina

Snider 12.4-acre Well Permit, receipt no. 10035238

4 messages

Dickinson - DNR, Wenli <wenli.dickinson@state.co.us>
To: Cody Snider <365hayco@gmail.com>

Wed, Jul 10, 2024 at 10:38 AM

Hi Cody and Christina,

I am reviewing your permit application for non-exempt well permit allowing household/livestock use which will appropriate the groundwater underlying a 12.4-acre parcel (a portion of the 40-acre parcel at 33100 E 160th Ave), receipt no. 10035238.

In order to complete the evaluation of your permit application, please provide the following information:

1. Since it appears that both Cody and Christina Snider own the property, both must be listed as applicants on all 3 forms and both must sign all 3 forms. Please amend or re-fill out all 3 forms accordingly.
2. You must submit the recorded version of the property deed.
3. You must indicate which aquifer you are applying for: the Lower Arapahoe or Laramie-Fox Hills aquifer. Note that the Laramie-Fox Hills aquifer may be more expensive to drill due to its depth and may have water quality issues due to coal deposits (this does not constitute advice but is provided for informational purposes). Please amend or re-fill out all 3 forms to list only the aquifer you are requesting.
4. You must provide a metes/bounds description, survey, or plat map of the specific 12.4 acres you are permitting this well for. Please ensure that the GWS-01 form describes or has attached the specific 12.4 acres for which the well will be permitted.

Please email this information to me directly. Let me know if you have any questions.

Lastly, please be advised that the aforementioned criteria must be addressed and received by this office within one year to retain active status of the application(s). Information submitted after that date will require the filing of new application(s) and will be assessed the appropriate fee.

To: "Dickinson - DNR, Wenli" <wenli.dickinson@state.co.us>

I will get to work on what you need, thank you for helping!

My one question is about the metes and bounds description. The county will not let me survey, or split those lots off yet without the well permits. Their requirements have to be met, and one of them is "proof of water". Can I put the legal description of the 42 acres on there?

I'll also scan the full page of the deed, it's the recorded copy, my computer just doesn't scan the legal size.

Thank you,

Christina

Hi Cody,

You don't need to legally subdivide the property at this time, but we do need a description or survey map showing the exact configuration of the portion of the 42 acres if you want to dedicate only the groundwater underlying 12.4 acres to the permit.

Otherwise, if you use 42 acres as the area on each application, then both permits would be withdrawing water from the entire 42 acres and not just a portion.

RE: Trip Generation Estimate for 33100 East 160th Avenue in Adams County

Dear Christina,

Based on your request, I have prepared this trip generation letter to document the trip generation for the existing and future development at 33100 East 160th Avenue in Adams County. A single family dwelling unit exists on the lot. You are proposing to divide the lot into three lots for two additional single family dwelling units. Figure 1 contains the vicinity map and Figure 2 shows the future three lot configuration.

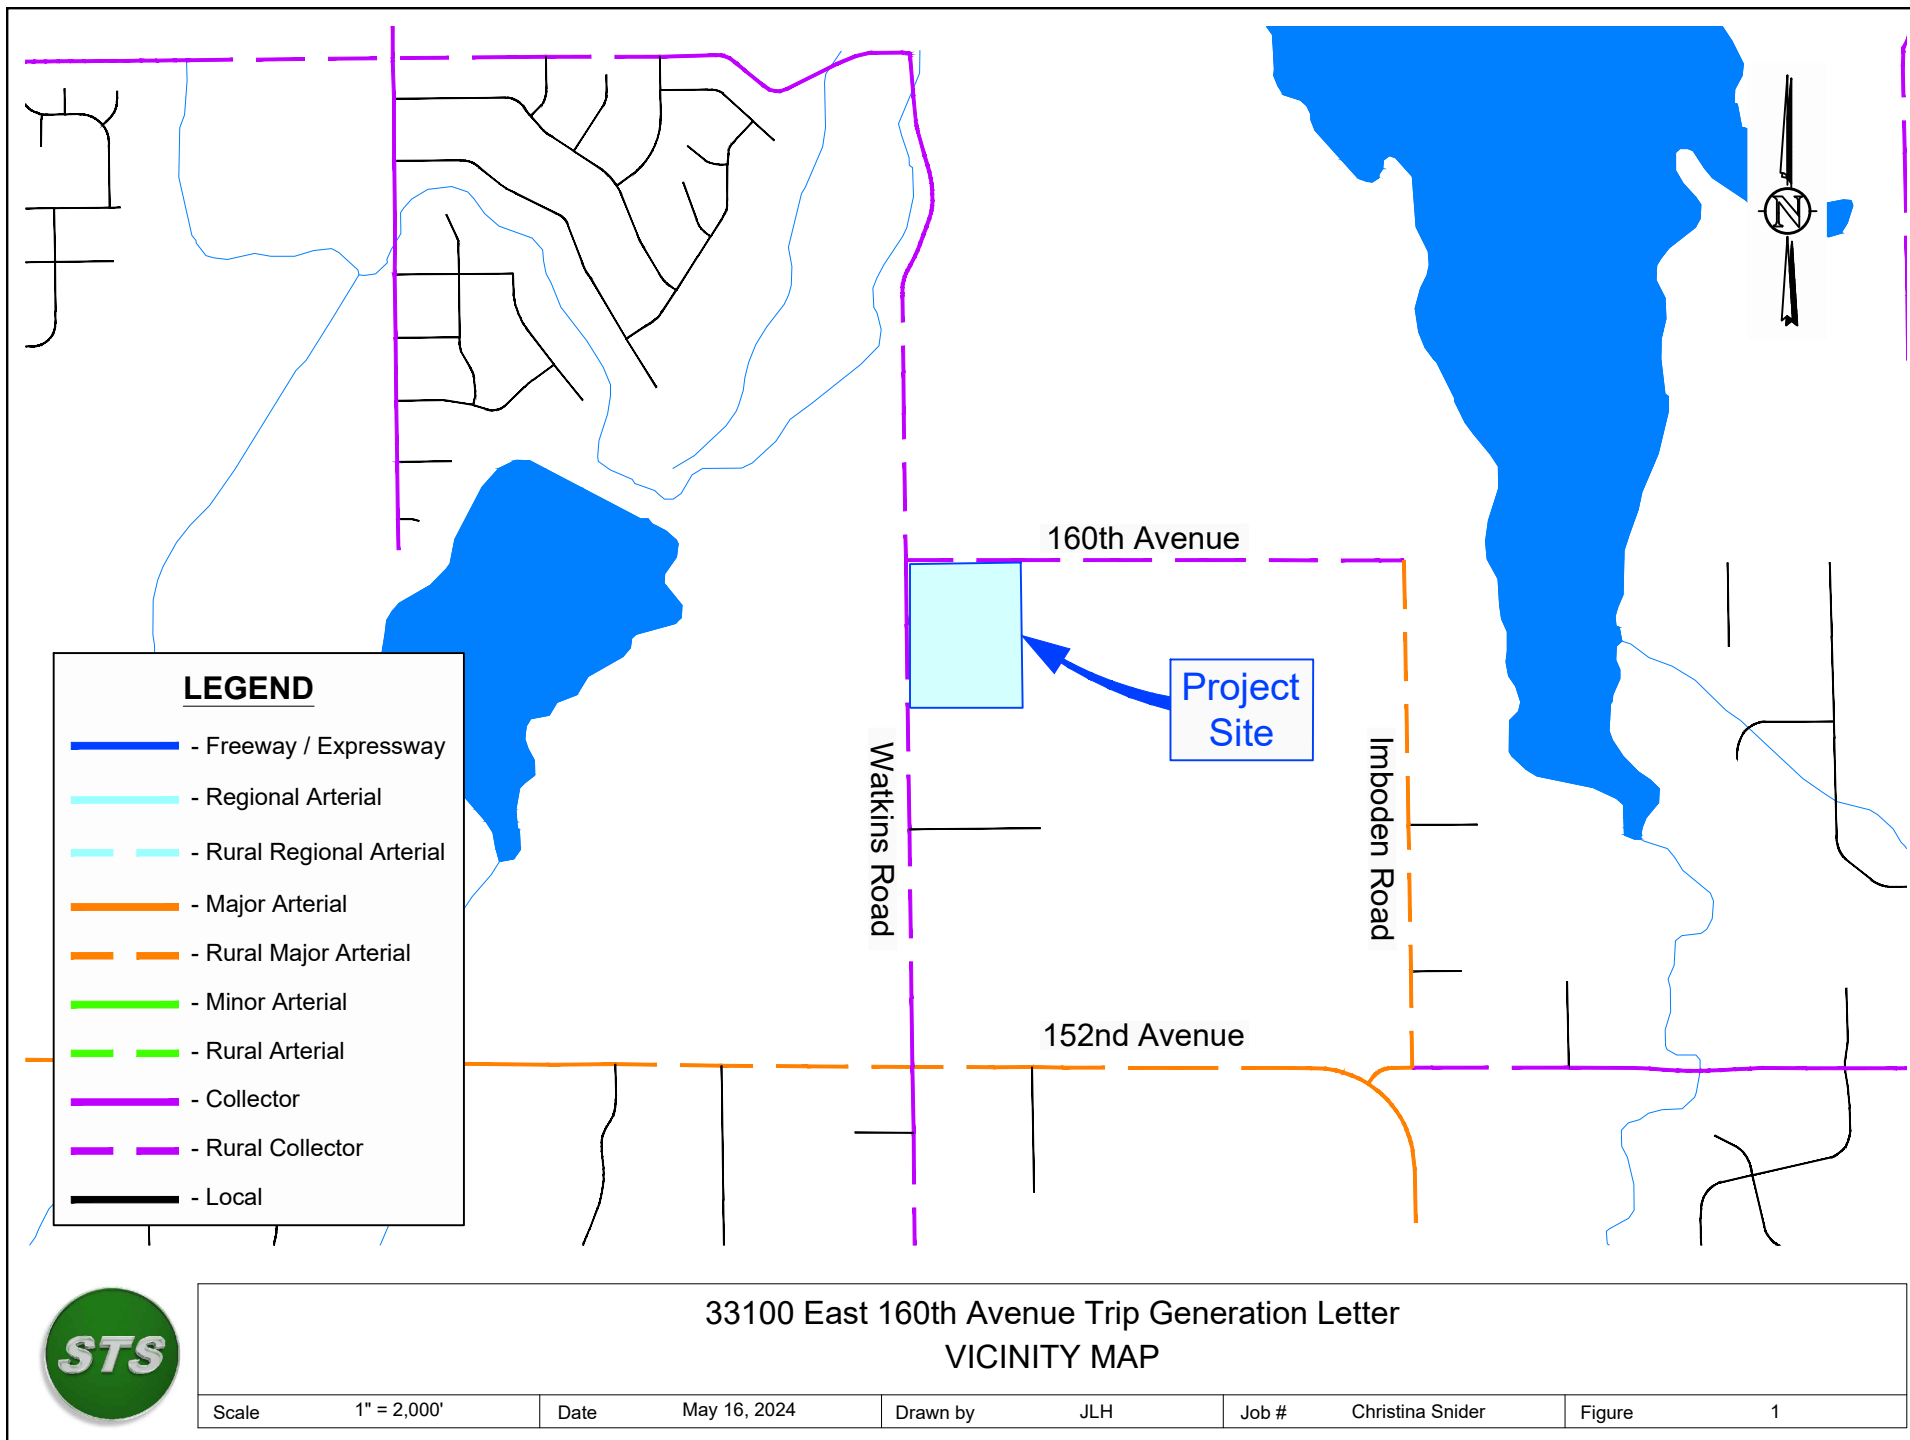

A trip generation estimate was prepared for the three residences using rates that are contained in the Institute of Transportation Engineers Trip Generation¹ manual. Table 1 contains the trip generation estimate that shows that the three homes are expected to generate 28 trips on an average weekday, two trips during the morning peak hour, and three trips during the evening peak hour.

Feel free to contact me to discuss the contents of this report.

Sincerely,

Joseph L. Henderson, PE, PTOE
Project Manager / Principal
33100 East 160th Avenue Trip Gen Letter

To: Cody Snider <365hayco@gmail.com>

Mon, Sep 23, 2024 at 5:36 PM

Hi Cody,

Sorry for the delay--I was out of the office today. This is the current impact calculation. Technically, it shows that you would owe \$573.80. Due to the fact that the student generation rate calculation (per Adams County calculation) would only yield 1.55 students, the district will not request the fee. Does that make sense? Thank you!

Written Description of Proposal for 33100 E. 160th Ave

Our property consists of approximately 42.5 acres. We would like to divide the property into 3 parcels, one that we keep, the other two we would like to sell. Parcel 1 would be 9.2 acres along the east side of the property, parcel 2 would be the one we keep at 18.4 acres, and parcel 3 would be along the south border at 12.4 acres. We do not want to develop the parcels at this time, but would leave it up to the discretion of the future buyers of the parcels to build if they choose to. The source of water and sewer for the parcels would be a well and septic system since no city water or sewer is available at this point in the area.

WARRANTY DEED

State Doc Fee: \$75.34
Recording Fee: \$23.00

THIS DEED is dated the 23rd day of January, 2024, and is made between

Lawrence Balzano and Valerie Balzano

(whether one, or more than one), the "Grantor" of the County of Adams and State of Colorado and

Cody Snider and Christina Snider

the "Grantees", whose legal address is 33100 East 160th Avenue, Hudson, CO 80642 of the County of Adams and State of Colorado.

WITNESS, that the Grantor, for and in consideration of the sum of **Seven Hundred Fifty Three Thousand Three Hundred Fifty Dollars and Eighty Four Cents (\$753,350.84)**, the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantees and the Grantees' heirs and assigns forever, **not in tenancy in common but in joint tenancy**, all the real property, together with any improvements thereon, located in the County of Adams and State of Colorado described as follows:

Parcel A, according to Horth Parcel Map Amended recorded March 13, 2002 as Survey No. 200, Reception No. C0939653 in the Clerk and Records Office of Adams County, Colorado, more particularly described as follows:

A parcel of land situate in the West Half of Section 7, Township 1 South, Range 64 West of the 6th Principal Meridian, County of Adams, State of Colorado, described as follows:

Beginning at the Northwest corner of said Section 7; Thence S89° 27' 35"E along with the North line of the Northwest Quarter of said Section 7, with all bearings hereon relative thereto, a distance of 1203.34 feet; Thence S00° 15' 53"E a distance of 1538.96 feet; Thence N89° 26' 09"W a distance of 1203.35 feet to a point on the West line of said Northwest Quarter of Section 7; Thence N00° 15' 53"W along the West line of said Northwest Quarter of Section 7 a distance of 1538.46 feet to the Point of Beginning;
County of Adams, State of Colorado.

also known by street address as: 33100 East 160th Avenue, Hudson, CO 80642

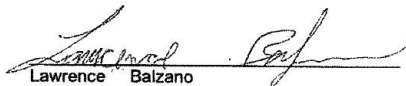

TOGETHER with all and singular the hereditaments and appurtenances thereto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

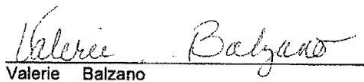

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantees, and the Grantees' heirs and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensealing and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law, and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: Statutory Exceptions as defined in C.R.S. § 38-30-113(5)(a).

And the Grantor shall and will **WARRANT THE TITLE AND DEFEND** the above described premises, in the quiet and peaceable possession of the Grantees, and the heirs and assigns of the Grantees, against all and every person or persons lawfully claiming the whole or any part thereof.

IN WITNESS WHEREOF, the Grantor has executed this deed on the date set forth above.

PERMIT TO CONSTRUCT A NEW WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-137(4) and the findings of the State Engineer dated July 31, 2024.
- 4) The use of groundwater from this well is limited to household use and livestock watering.
- 5) The pumping rate of this well shall not exceed 15 GPM.
- 6) Production from this well is limited to the Laramie-Fox Hills aquifer which is located approximately 1,025 feet below ground surface and extends to a depth of approximately 1,310 feet. Wells completed in the Laramie-Fox Hills aquifer must be constructed with solid steel casing and grouted in accordance with Well Construction Rule 10.4.8 (2 CCR 402-2). If coals and/or carbonaceous shales are encountered in the borehole, plain casing and grout should be installed through these intervals to exclude poor quality water from entering the well, in accordance with BOE Bulletin 2021-1.
- 7) The average annual amount of groundwater to be withdrawn shall not exceed 2.88 acre-feet and the total volume of groundwater to be withdrawn shall not exceed 288 acre-feet.
- 8) The entire length of the hole shall be geophysically logged as required by Rule 9 of the Statewide Nontributary Ground Water Rules prior to installing casing.
- 9) The owner shall mark the well in a conspicuous location with well permit number(s), name of the aquifer, and court case number(s) as appropriate. The owner shall take necessary means and precautions to preserve these markings.
- 10) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- 11) This well shall be constructed more than 600 feet from any existing well, completed in the same aquifer, that is not owned by the applicant.
- 12) This well shall be constructed not more than 200 feet from the location specified on this permit.
- 13) Pursuant to CRS 37-90-137(9)(b) and the Denver Basin Rules, no more than 98% of the nontributary groundwater withdrawn annually shall be consumed and the well owner shall demonstrate to the reasonable satisfaction of the State Engineer that no more than 98% of the water withdrawn will be consumed.
- 14) This well is subject to administration by the Division Engineer in accordance with applicable decrees, statutes, rules, and regulations.

- 15) ADVANCE NOTICE REQUIRED - Pursuant to Construction Rule 6.2.2.1 (2 CCR 402-2), licensed or private drillers and pump installers must provide advance notification (by 11:59 pm the day before) to the State Engineer prior to each of the following for this well: the start of well construction, the initial installation of the first permanent pump, and the initial installation of a cistern connected to the water well supply system. Any change in the date of construction/installation must be re-noticed prior to the activity (by 11:59 pm the day before). Information regarding the notification process and a link to the electronic notification form can be found on the Division of Water Resources website at dwr.colorado.gov

NOTE: This well is withdrawing water from a non-renewable aquifer. While the withdrawals from this aquifer are administered based on a 100 year aquifer life, water level declines may prevent this well from diverting the permitted amounts for that 100 years.

NOTE: To ensure a maximum productive life of this well, perforated casing should be set through the entire producing interval of the approved zone or aquifer indicated above.

NOTE: This permit will expire on the expiration date unless the well is constructed and a pump is installed by that date. A Well Construction and Yield Estimate Report (GWS-31) and Pump Installation and Production Equipment Test Report (GWS-32) must be submitted to the Division of Water Resources to verify the well has been constructed and the pump has been installed. A one-time extension of the expiration date may be available. Contact the DWR for additional information or refer to the extension request form (GWS-64) available at: dwr.colorado.gov

Issued By WENLI DICKINSON

Date Issued: 7/31/2024

Expiration Date: 7/31/2025

FINDINGS OF THE STATE ENGINEER

IN THE MATTER OF AN APPLICATION FOR A PERMIT TO CONSTRUCT A WELL IN WATER
DIVISION NO. 1, ADAMS COUNTY, COLORADO

APPLICANT: CHRISTINA AND CODY SNIDER

AQUIFER: LARAMIE-FOX HILLS

PERMIT NO.: 89373-F

In compliance with C.R.S. 37-90-137(1) and the Statewide Nontributary Ground Water Rules, Christina and Cody Snider, (hereinafter "applicant") submitted an application for a permit to construct a well. Based on information provided by the applicant and records of the Division of Water Resources, the State Engineer finds as follows:

1. The application was received complete by the State Engineer on April 9, 2024.
2. The applicant proposes to construct the well in the NW1/4 of the NW1/4 of Section 7, Township 1 South, Range 64 West, 6th Principal Meridian.
3. The proposed well is located outside the boundaries of a designated ground water basin.
4. The applicant proposes to apply the water withdrawn from the well to the following beneficial uses: household use and livestock watering.
5. The proposed maximum pumping rate of the well is 15 gallons per minute, and the requested average annual amount of ground water to be withdrawn is the maximum amount determined to be available.
6. The applicant is the owner of the land on which the well will be constructed.
7. The proposed well would withdraw ground water from the Laramie-Fox Hills Aquifer (hereinafter "aquifer"), which, as specified in the Denver Basin Rules, is located approximately 1025 feet to 1310 feet below land surface.
8. The location of the proposed well is more than 600 feet from any existing well completed in the aquifer.
9. According to a sworn statement, the applicant owns, or has consent to withdraw ground water underlying 12.4 acres of land as further described in said statement, which is attached hereto as Exhibit A.

10. Withdrawal of ground water from the aquifer underlying the land claimed by the applicant will not, within one hundred years of continuous withdrawal, deplete the flow of a natural stream at an annual rate greater than one-tenth of one percent of the annual rate of withdrawal and therefore the ground water is nontributary ground water as defined in C.R.S. 37-90-103(10.5).
11. In considering whether the requested permit shall be approved the provisions of C.R.S. 37-90-137(4) and the Denver Basin Rules shall apply. Withdrawals shall be allowed on the basis of an aquifer's life of 100 years, C.R.S. 37-90-137(4)(b)(I).
12. The quantity of water in the aquifer, exclusive of artificial recharge, underlying the 12.4 acres of land described in Exhibit A is 288 acre-feet. This determination was based on the following as specified in the Denver Basin Rules:
 - a. The average specific yield of the saturated aquifer materials underlying the land under consideration is 15 percent.
 - b. The average thickness of the saturated aquifer materials underlying the land under consideration is 155 feet.
13. A review of the records in the State Engineer's Office has not disclosed that there are any existing wells or other water rights claiming or diverting ground water from the aquifer underlying the land claimed by the applicant.

Based on the above, the State Engineer finds that there is water available for withdrawal by the proposed well and no material injury to vested water rights would result from the issuance of the requested permit subject to the following conditions:

- a. The allowed average annual amount of water to be withdrawn from the aquifer by the well shall not exceed 2.88 acre-feet (the quantity of water which is considered available divided by the 100 year aquifer life).
- b. The total volume of water that may be withdrawn from the aquifer by the well shall not exceed 288 acre-feet.
- c. The well shall be constructed no more than 200 feet from the location specified on the permit application.
- d. The applicant shall submit geophysical and lithologic logs after the construction of the well. The geophysical logs shall be obtained from the hole before the casings are installed.
- e. The maximum pumping rate of the well shall not exceed 15 gallons per minute.

- f. A totalizing flow meter must be installed on the well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- g. Production is limited to the Laramie-Fox Hills Aquifer. The well must be constructed with plain, non-perforated casing properly grouted so as to prevent intermingling of water between aquifers.
- h. Pursuant to C.R.S. 37-90-137(9)(b) and the Denver Basin Rules, no more than 98% of the nontributary ground water withdrawn annually shall be consumed and the applicant shall demonstrate to the reasonable satisfaction of the State Engineer that no more than 98% of the water withdrawn will be consumed.
- i. The owner shall mark the well in a conspicuous place with appropriate well permit numbers, name of the aquifer, and court case numbers. He shall take necessary means and precautions to preserve these markings.

Dated this 31st day of July, 2024.

Jason T. Ullmann, P.E.

NONTRIBUTARY GROUNDWATER LANDOWNERSHIP STATEMENT

This form is to be submitted with applications for the following, when the applicant is the owner of the overlying land.

- 1) A well permit to withdraw groundwater from the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or other aquifer the applicant claims contains nontributary groundwater, outside of a Designated Groundwater Basin subject to section 37-90-137(4), C.R.S., except when the right to withdraw the groundwater has been determined by a valid decree; OR
- 2) A determination of water right in the Dawson, Denver, Arapahoe or Laramie-Fox Hills aquifers, or a well permit to withdraw groundwater from those aquifers that are subject to Designated Basin Rule 5.4, within a Designated Groundwater Basin.

NOTE: Form submittal instructions can be found on our website Colorado.gov/water. See instructions on the reverse of this form. Type or print in black or blue ink.

WARRANTY DEED

State Doc Fee: \$75.34
Recording Fee: \$23.00

THIS DEED is dated the 23rd day of January, 2024, and is made between

Lawrence Balzano and Valerie Balzano

(whether one, or more than one), the "Grantor" of the County of Adams and State of Colorado and

Cody Snider and Christina Snider

the "Grantees", whose legal address is 33100 East 160th Avenue, Hudson, CO 80642 of the County of Adams and State of Colorado.

WITNESS, that the Grantor, for and in consideration of the sum of **Seven Hundred Fifty Three Thousand Three Hundred Fifty Dollars and Eighty Four Cents (\$753,350.84)**, the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantees and the Grantees' heirs and assigns forever, **not in tenancy in common but in joint tenancy**, all the real property, together with any improvements thereon, located in the County of Adams and State of Colorado described as follows:

Parcel A, according to North Parcel Map Amended recorded March 13, 2002 as Survey No. 200, Reception No. C0939653 in the Clerk and Records Office of Adams County, Colorado, more particularly described as follows:

A parcel of land situate in the West Half of Section 7, Township 1 South, Range 64 West of the 6th Principal Meridian, County of Adams, State of Colorado, described as follows:

Beginning at the Northwest corner of said Section 7; Thence S89° 27' 35"E along with the North line of the Northwest Quarter of said Section 7, with all bearings hereon relative thereto, a distance of 1203.34 feet; Thence S00° 15' 53"E a distance of 1538.96 feet; Thence N89° 26' 09"W a distance of 1203.35 feet to a point on the West line of said Northwest Quarter of Section 7; Thence N00° 15' 53"W along the West line of said Northwest Quarter of Section 7 a distance of 1538.46 feet to the Point of Beginning;
County of Adams, State of Colorado.

also known by street address as: 33100 East 160th Avenue, Hudson, CO 80642

TOGETHER with all and singular the hereditaments and appurtenances thereto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantees, and the Grantees' heirs and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensembling and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law, and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: Statutory Exceptions as defined in C.R.S. § 38-30-113(5)(a).

And the Grantor shall and will **WARRANT THE TITLE AND DEFEND** the above described premises, in the quiet and peaceable possession of the Grantees, and the heirs and assigns of the Grantees, against all and every person or persons lawfully claiming the whole or any part thereof.

IN WITNESS WHEREOF, the Grantor has executed this deed on the date set forth above.

WARRANTY DEED

Cody Snider and Christina Snider

the "Grantees", whose legal address is 33100 East 160th Avenue, Hudson, CO 80642 of the County of Adams and State of Colorado.

WITNESS, that the Grantor, for and in consideration of the sum of **Seven Hundred Fifty Three Thousand Three Hundred Fifty Dollars and Eighty Four Cents (\$753,350.84)**, the receipt and sufficiency of which is hereby acknowledged, hereby grants, bargains, sells, conveys and confirms unto the Grantees and the Grantees' heirs and assigns forever, **not in tenancy in common but in joint tenancy**, all the real property, together with any improvements thereon, located in the County of Adams and State of Colorado described as follows:

Parcel A, according to Horth Parcel Map Amended recorded March 13, 2002 as Survey No. 200, Reception No. C0939653 in the Clerk and Records Office of Adams County, Colorado, more particularly described as follows:

A parcel of land situate in the West Half of Section 7, Township 1 South, Range 64 West of the 6th Principal Meridian, County of Adams, State of Colorado, described as follows:

Beginning at the Northwest corner of said Section 7; Thence S89° 27' 35"E along with the North line of the Northwest Quarter of said Section 7, with all bearings hereon relative thereto, a distance of 1203.34 feet; Thence S00° 15' 53"E a distance of 1538.96 feet; Thence N89° 26' 09"W a distance of 1203.35 feet to a point on the West line of said Northwest Quarter of Section 7; Thence N00° 15' 53"W along the West line of said Northwest Quarter of Section 7 a distance of 1538.46 feet to the Point of Beginning;
County of Adams, State of Colorado.

also known by street address as: 33100 East 160th Avenue, Hudson, CO 80642

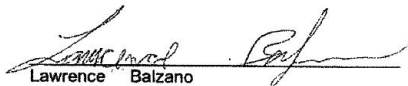

TOGETHER with all and singular the hereditaments and appurtenances thereto belonging, or in anywise appertaining, the reversions, remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor, either in law or equity, of, in and to the above bargained premises, with the hereditaments and appurtenances;

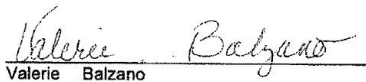

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantees, and the Grantees' heirs and assigns forever.

The Grantor, for the Grantor and the Grantor's heirs and assigns, does covenant, grant, bargain, and agree to and with the Grantee, and the Grantee's heirs and assigns: that at the time of the ensealing and delivery of these presents, the Grantor is well seized of the premises above described; has good, sure, perfect, absolute and indefeasible estate of inheritance, in law, and in fee simple; and has good right, full power and lawful authority to grant, bargain, sell and convey the same in manner and form as aforesaid; and that the same are free and clear from all former and other grants, bargains, sales, liens, taxes, assessments, encumbrances and restrictions of whatever kind or nature soever, except and subject to: Statutory Exceptions as defined in C.R.S. § 38-30-113(5)(a).

And the Grantor shall and will **WARRANT THE TITLE AND DEFEND** the above described premises, in the quiet and peaceable possession of the Grantees, and the heirs and assigns of the Grantees, against all and every person or persons lawfully claiming the whole or any part thereof.

IN WITNESS WHEREOF, the Grantor has executed this deed on the date set forth above.

Cc: My Love <cdlsnider@gmail.com>

Good afternoon,

We recently purchased 42 acres from my aunt and uncle. We would like to separate off 2 parcels of land from the 42 acres to sell to help pay for the property and home. I've started the process with Adams county. They stated we need proof of water for the lots. I've emailed back and forth with DWR on how best to do this, and decided it was best to apply for a well for each parcel. Please see attached application and additional forms needed. We would like to apply for non exempt wells, keep the current well that's on the property with the house in its current operating capacity, and appropriate the ground water under each new parcel to itself. Please reach out with any questions, or additional information needed. Thank you.

Christina

Snider 12.4-acre Well Permit, receipt no. 10035238

4 messages

Dickinson - DNR, Wenli <wenli.dickinson@state.co.us>
To: Cody Snider <365hayco@gmail.com>

Wed, Jul 10, 2024 at 10:38 AM

Hi Cody and Christina,

I am reviewing your permit application for non-exempt well permit allowing household/livestock use which will appropriate the groundwater underlying a 12.4-acre parcel (a portion of the 40-acre parcel at 33100 E 160th Ave), receipt no. 10035238.

In order to complete the evaluation of your permit application, please provide the following information:

1. Since it appears that both Cody and Christina Snider own the property, both must be listed as applicants on all 3 forms and both must sign all 3 forms. Please amend or re-fill out all 3 forms accordingly.
2. You must submit the recorded version of the property deed.
3. You must indicate which aquifer you are applying for: the Lower Arapahoe or Laramie-Fox Hills aquifer. Note that the Laramie-Fox Hills aquifer may be more expensive to drill due to its depth and may have water quality issues due to coal deposits (this does not constitute advice but is provided for informational purposes). Please amend or re-fill out all 3 forms to list only the aquifer you are requesting.
4. You must provide a metes/bounds description, survey, or plat map of the specific 12.4 acres you are permitting this well for. Please ensure that the GWS-01 form describes or has attached the specific 12.4 acres for which the well will be permitted.

Please email this information to me directly. Let me know if you have any questions.

Lastly, please be advised that the aforementioned criteria must be addressed and received by this office within one year to retain active status of the application(s). Information submitted after that date will require the filing of new application(s) and will be assessed the appropriate fee.

I will get to work on what you need, thank you for helping!

My one question is about the metes and bounds description. The county will not let me survey, or split those lots off yet without the well permits. Their requirements have to be met, and one of them is "proof of water". Can I put the legal description of the 42 acres on there?

I'll also scan the full page of the deed, it's the recorded copy, my computer just doesn't scan the legal size.

Thank you,

Christina

Hi Cody,

You don't need to legally subdivide the property at this time, but we do need a description or survey map showing the exact configuration of the portion of the 42 acres if you want to dedicate only the groundwater underlying 12.4 acres to the permit.

Otherwise, if you use 42 acres as the area on each application, then both permits would be withdrawing water from the entire 42 acres and not just a portion.

Hudson, CO 80642

RE: Trip Generation Estimate for 33100 East 160th Avenue in Adams County

Dear Christina,

Based on your request, I have prepared this trip generation letter to document the trip generation for the existing and future development at 33100 East 160th Avenue in Adams County. A single family dwelling unit exists on the lot. You are proposing to divide the lot into three lots for two additional single family dwelling units. Figure 1 contains the vicinity map and Figure 2 shows the future three lot configuration.

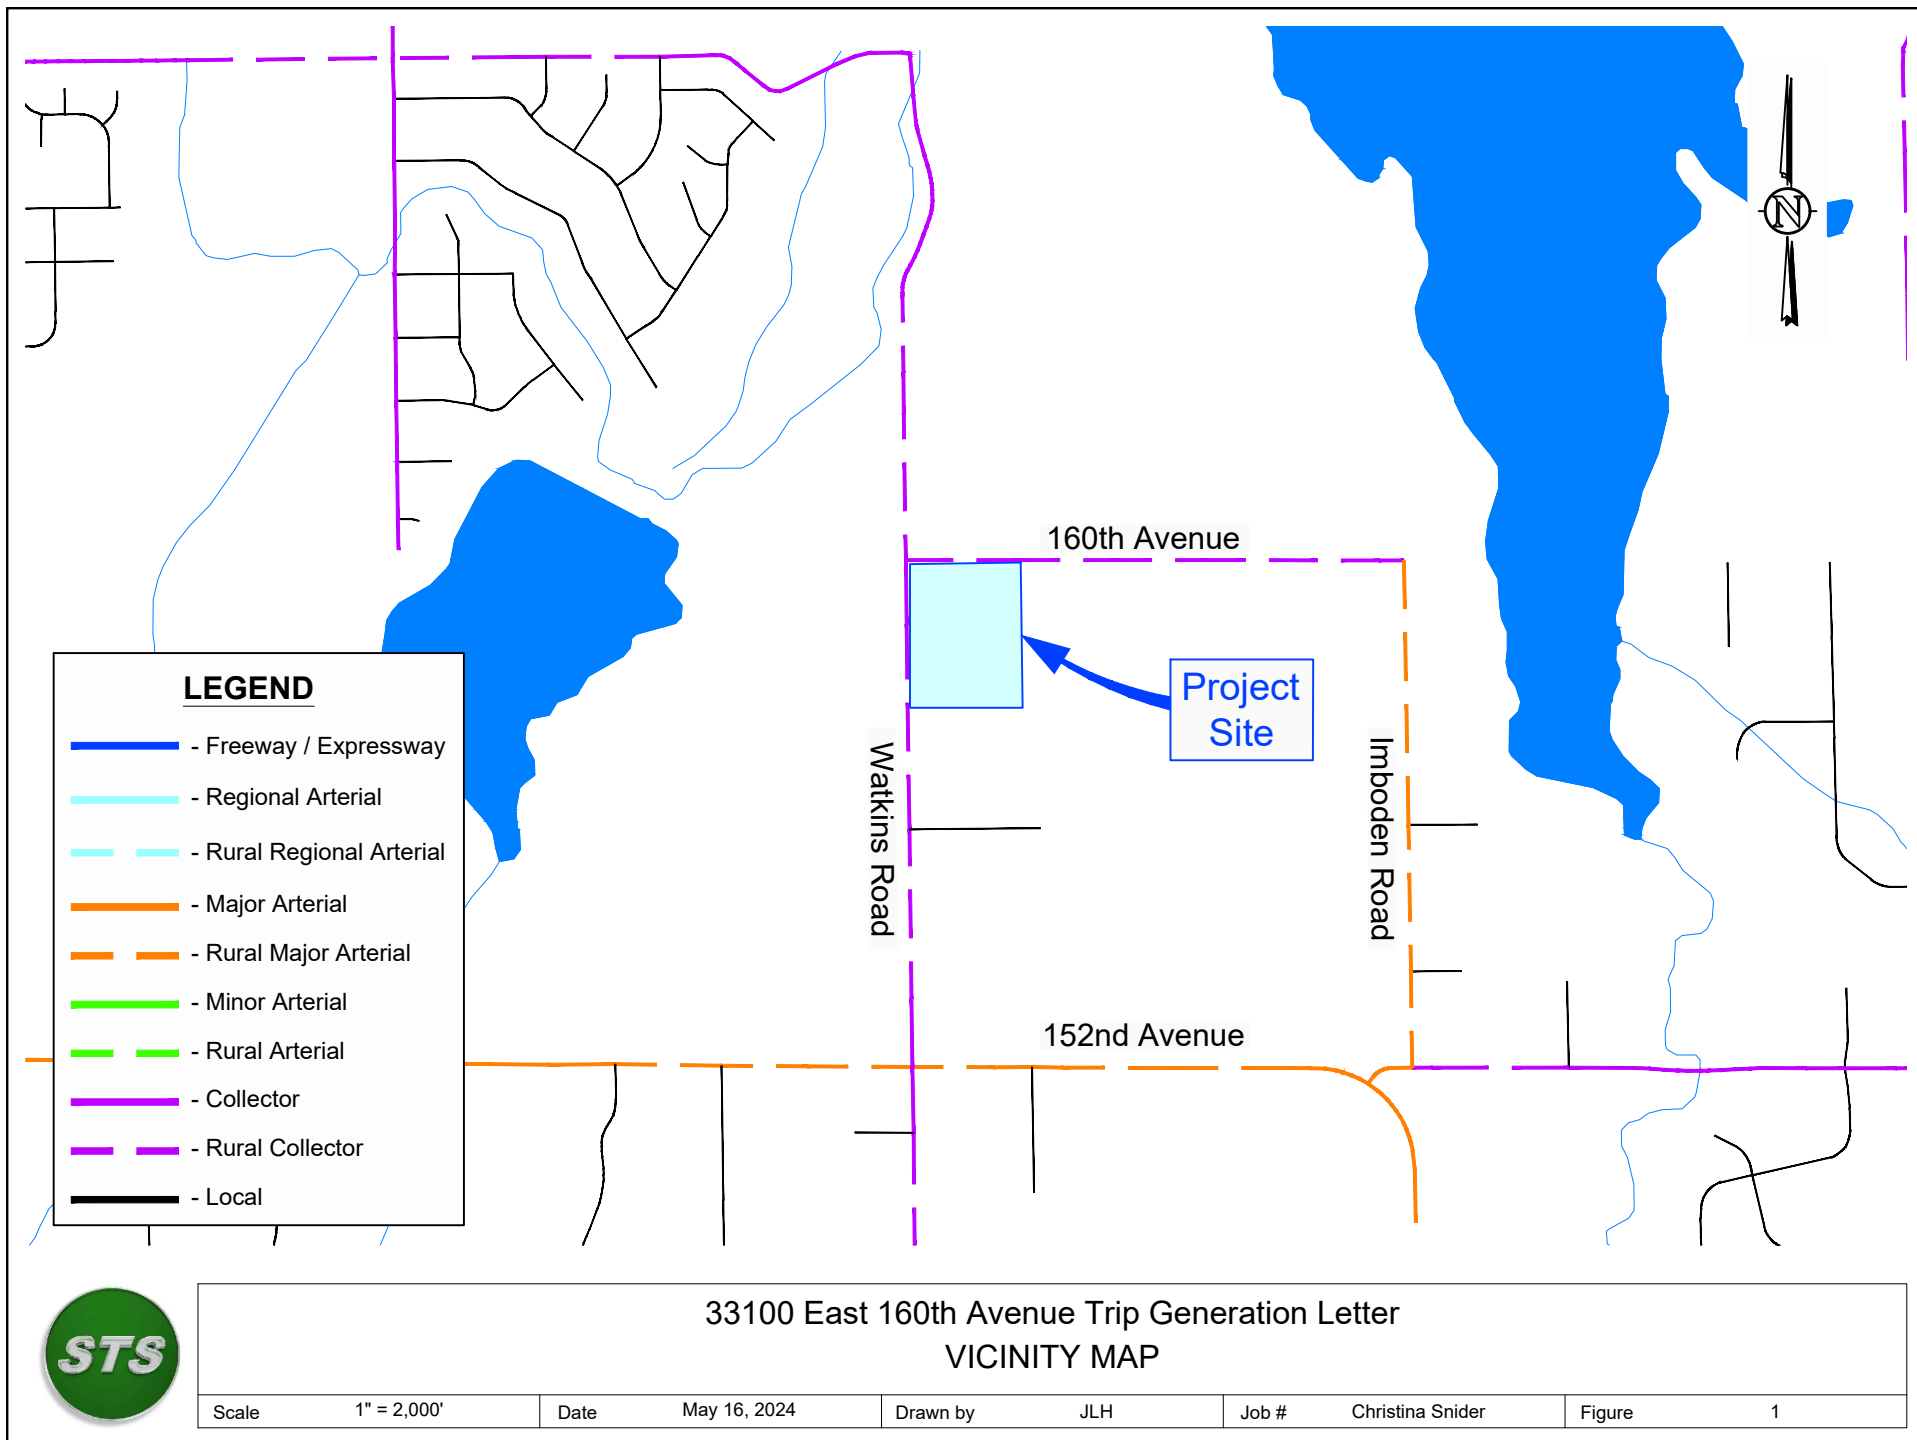

A trip generation estimate was prepared for the three residences using rates that are contained in the Institute of Transportation Engineers Trip Generation¹ manual. Table 1 contains the trip generation estimate that shows that the three homes are expected to generate 28 trips on an average weekday, two trips during the morning peak hour, and three trips during the evening peak hour.

Feel free to contact me to discuss the contents of this report.

Sincerely,

Joseph L. Henderson, PE, PTOE
Project Manager / Principal
